About Us

The mission of the Women Lawyers Association is to provide a forum for women attorneys, to promote the legal profession in Jefferson County, and to offer information about the profession and public services to the community at large. The Association was founded in 1961 by fifteen women attorneys and has a current membership of about 200 female and male attorneys, members of the judiciary, and law students. Luncheon meetings are held on the second Thursday of each month featuring speakers on current issues and promotion of the Association's activities. The Association offers a wonderful opportunity for lawyers and law students to meet and share experiences. Association members represent a spectrum of practice from government and corporate to private practice and public interest work. We encourage everyone in the practice of law or who is a law student to join us and keep the association a vital one.
